

## Visit of JICA delegation in Djibouti

A JICA delegation led by Mr. Ryuichi Kato, Director General of JICA's Africa department made an on-site visit to Djibouti from the 3-5 October as part of the signing ceremony on the drilling test project for geothermal development between Djibouti and the ODDEG (Djibouti Office for Geothermal Energy Development).

*Meeting between Doraleh Multipurpose Port officials & JICA delegation.*

Exchange of gifts between **Mr. Saad Omar Guelleh**, Director General of Ports and **Mr. Ryuichi Kato**, Director General of JICA's Africa department.

The Government of Japan in the framework of technical cooperation to further contribute to energy security in Djibouti, which is currently one of the major challenges for the Djiboutian government, will provide funding for this project.

During his stay in Djibouti, Mr. Kato visited the city of Obock, the Port of Tadjourah and met with the Director General of the Doraleh Multipurpose Port, Mr. Saad Omar Guelleh.
